

26 March 2019

Appointment of CEO

Critical Metals Ltd (www.criticalmetals.eu) is pleased to advise that Mr. Hans Nilsson has been appointed Chief Executive Officer of wholly owned subsidiary company Kiruna Iron AB (KIAB) as of 1 April 2019.

Mr Nilsson has deep experience in all aspects of Marketing, Sales and Logistics of Iron Ore globally. Over a period of more than 25 years he has held various management and senior management positions in Iron Ore companies such as LKAB, Minelco, Northland Resources, Ferrexpo and Kaunis Iron. Mr Nilsson was also previously President and CEO of a bioenergy company based in Vancouver, Canada. He has vast international experience having lived and worked in the Far East, North America and Western Europe. Mr Nilsson has a Bachelor of Science and Business Administration from Luleå University of Technology.

Kiruna Iron's vision is to become a globally significant supplier of premium quality industrial minerals to the steel industry, and other industries that rely on high grade minerals for their value creation. The Company's strategy is to develop its Swedish iron ore portfolio whilst actively seeking opportunities to acquire high quality advanced projects.

Kiruna Iron plans to list its securities on a Nordic securities exchange in the short-medium term.

Critical Metals will focus on providing high purity battery materials to European lithium ion battery (LiB) cell manufacturers via the recycling of LiBs (urban mining) and the exploration and development of mineral deposits (traditional mining).
